

Franchise Interviews Meets with the KLA Schools Franchise Concept

August 20, 2015

KLA Schools is an upscale preschool catering to children three months of age up to age six. KLA schools offers innovative early child care facilities along with a unique approach to early childhood education. The **KLA Schools** concept is inspired by cutting-edge educational philosophies including the Reggio Emilia Approach.

KLA is building a world-class franchise organization that sets new standards for excellence within the children's educational services industry.

Heavy reliance upon the Reggio Emilia Approach provides KLA with a different method than what has become the standard in American daycare and preschool franchises. Many parents who are seeking the best for their children are drawn to KLA's new system and the inspirational design of the schools. While childcare and preschool centers often lay claim to having a superior education program or curriculum, few back up this claim with a concrete, verifiable explanation. We are meeting with Roberto Ortega, CEO and co-founder of KLA Schools.
