

Who Is KLA Schools?

We are a private early education franchise opportunity that serves infants through preschool children. The ideal school space boasts 10K sq. ft and a capacity for 180 students. Owning a KLA Schools franchise will give you the chance to:

Provide a highly impactful educational experience for students

Become a community leader for families in surrounding areas

Improve your business portfolio with a solid investment

What Children Do We Serve?

KLA Schools offers:

Childcare services from infants to preschool-aged students through our proven business model and curriculum. We do this by:

- Helping students stay more engaged compared to a typical daycare experience
- Incorporate lessons where students are active participants rather than directing them from activity to activity
- Creating comfortable classroom environments to encourage student curiosity. Each school typically has 10 classrooms, including 2 rooms per age group
- Offering before and after school care that can give franchise owners an additional revenue stream

What Makes KLA Schools Special?

KLA Schools stands out from other preschool and childcare options through our:

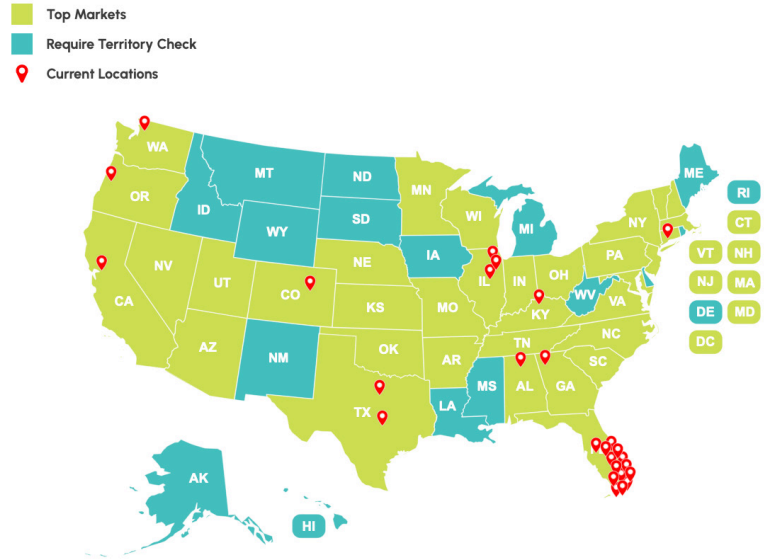

- Reggio Emilia Method curriculum, which focuses on helping children learn through their senses and experiences
- Unique classroom design that encourages active learning and exploration. This includes our ateliers, which are dedicated art rooms, and piazzas, which are wide hallways used for collaborative work
- Use of numerous large windows that filter in natural light, with plants, organic materials, and soft colors completing our vision.

Where Are We Growing?

KLA Schools was founded in 2008 by Roberto and Candy Ortega, who had a passion for delivering better educational outcomes using the Reggio Emilia Method. They opened their first preschool in Brickell, a neighborhood of Miami, FL and we have not looked back since!

Each KLA franchise is located in an area with a high population density of families with preschool-aged children. This gives our franchise owners a greater opportunity to enroll the ideal number of students. The map to the right showcases that we plan to enter a number of new territories across the country soon:

Where Are We Going Next?

If you're interested in starting a KLA preschool franchise of your own, our team has identified several key markets where demand for exceptional childcare options is high.

Our team is confident that our KLA Schools will achieve strong enrollment near major metro areas like:

- Atlanta
- Orlando
- Austin
- Nashville
- And plenty of others!

Our expansion opportunities are not just limited to the neighborhoods surrounding those cities. For a full view of the nationwide markets we have slated as ready to enter, check out our [KLA Schools Top Territories map](#)!
